A Tradition of Service

The Honorable Board of Supervisors
July 20, 2004
Page 2

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

The purpose of the recommended actions is to seek Board approval of the extended period of performance, and to update the Agreement's terms and conditions. Approval of this Amendment will allow the Sheriff's Department to keep its Mobile Digital Communications System (MDCS) computer equipment maintained in working condition to enable the Department to continue providing 24 hours a day, seven (7) days a week service to over 2.6 million residents of Los Angeles County. Also, this extension is needed to allow the Department to complete its solicitation process for a new computer hardware maintenance services agreement. The MDCS is a computer-aided dispatch system that supports 9-1-1 emergency calls to Sheriff's patrol vehicles in the field and is located at the Sheriff's Communications Center and at substations throughout the County.

Implementation of Strategic Plan Goals

The services provided under this Agreement support the County's Strategic Goal Number 1, Service Excellence, by providing Los Angeles County Sheriff's Department a Mobile Digital Communications System to support 9-1-1 emergency calls to patrol vehicles.

FINANCING/FISCAL IMPACT

The Sheriff's Department has identified funding in the amount of \$355,705 in its Fiscal Year 2004-05 adopted Budget to cover the anticipated level of service for the six (6) month period plus the six (6) month option. Of the \$355,705 allocated, \$296,526 is for Equipment and Maintenance, \$44,479 is for a 15 percent Contingency (additional equipment), and \$14,700 is for Time and Materials costs.

The Honorable Board of Supervisors
July 20, 2004
Page 3

This Amendment reflects an aggregate rate increase of 6.3 percent from the current Agreement. This increase will not affect the Maximum Agreement Amount of \$2,178,504.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

This Agreement, approved by the Board on February 9, 1999, is for the Hewlett Packard computer hardware maintenance services for its MDCS computer-aided dispatch system. In addition to extending the term of the current contract, this Amendment updates the Equipment and Maintenance Price List and adds a schedule of Time and Materials Rates.

The Contractor is in compliance with all Board, Chief Administrative Office, and County Counsel requirements, including Jury Service Program and Safely Surrendered Baby Law.

Under this Amendment, HP will not be asked to perform services, which exceed the scope of the work or contract dates.

County Counsel has reviewed and approved Amendment Number 9 as to form.

The Chief Information Officer (CIO) has reviewed and approved this amendment.

CONTRACTING PROCESS

The Department has begun the development of a solicitation process to select a new computer hardware maintenance services contractor, which is anticipated to be completed at the end of calendar year.

The Honorable Board of Supervisors

IMPACT ON CURRENT SERVICES

This Amendment Number 9 will ensure continued and uninterrupted Hewlett Packard computer hardware maintenance services for existing equipment which supports the Sheriff's MDCS.

Respectfully submitted,

Introduction:

The Sheriff's Department (Sheriff) is requesting your Board's approval of an Amendment Number 9 (Amendment) to Agreement Number 72017 (Agreement) with Hewlett Packard (HP) for maintenance services of the Sheriff's Mobile Digital Communications System's (MDCS) computer. The proposed Amendment extends the original Agreement's term by six (6) months with an option to extend the term by an additional six (6) month extension. The Total Maximum Sum for the Agreement will not increase during Amendment Number 9's extended term. A re-allocation of the original Agreement's contingency funds and a reduction in hardware covered under the Agreement will provide the \$355,705 needed for the proposed Amendment including the optional term. The requested Board action will also delegate the authority to execute the optional period to the Sheriff.

Agreement 72017 is included in the contracts listing within the Sheriff's Department's 2004-2005 Business Automation Plan and the Sheriff's Fiscal Year Information Technology Budget. The Sheriff's general fund budget will provide funding for this Agreement.

The total cost for the original maintenance Agreement is itemized below:

Hardware maintenance costs	\$1,821,227
15% Contingency funds	\$273,187
Time and materials funds	\$84,090
Total Agreement costs	\$2,178,504

Project/Contract Description:

The present maintenance Agreement expires August 8, 2004. The Amendment will allow the Sheriff to prepare a Request For Proposals (RFP), to conduct the competitive solicitation and to negotiate a new contract with the highest rated vendor.

Project Background:

MDCS is a computer-aided dispatch system located at the Sheriff's Communications Center and at substations throughout the County and supports 9-1-1 emergency calls to Sheriff's patrol vehicles in the field. The Sheriff's Department requires its MDCS computer equipment to be maintained 24 hours a day, seven (7) days a week to enable the Department to provide the same quality of service to over 2.6 million residents within Los Angeles County.

The Sheriff has been using Tandem computers for the MDCS computers since July 1990. Tandem was acquired by Compaq Incorporated in February 1999. Compaq was then acquired by Hewlett Packard in May 2004.

The Sheriff has contacted the County's Internal Services Department in an effort to add the MDCS computers to the HP Countywide Maintenance Agreement but was not offered a comparable discount on the required maintenance services.

Project Justification/Benefits:

The Amendment will allow the Sheriff to conduct the competitive solicitation and to negotiate a new contract with the highest rated vendor. Ongoing maintenance is critical in providing a reliable hardware environment to support the Sheriff's Mobile Digital Communications System.

Project Metrics:

The metrics and standards established under the original Agreement have been effective over the existing term of the Agreement. HP has maintained the MDCS equipment according to these standards with no problems encountered.

Impact If Proposal Is Not Approved:

The Sheriff must maintain the MDCS equipment. If the Amendment is not approved, the Sheriff will have to pay non-contract rates for the equipment maintenance, which may be substantially higher.

Alternatives Considered:

The Sheriff has no other alternative.

Project Risks:

There are no project risks associated with the Amendment.

Risk Mitigation Measures:

No risk mitigation measures are needed.

CIO Analysis
Page 4 of 4

Financial Analysis:

The re-allocated funding under the Agreement is itemized below:

Hardware maintenance costs	\$296,526
15% Contingency funds	\$44,479
Time and materials funds	\$14,700
Payable under this Amendment	\$355,705

The hardware maintenance costs are for maintenance of MDCS equipment located at the Sheriff's Communications Center and at substations throughout the County. The contingency funds are for any new or additional equipment needed within the MDCS network. The time and material funds are for any non-standard services required by the MDCS network.

Total Maximum Sum for the Agreement will not increase during Amendment Number 9. A re-allocation of the original Agreement's contingency funds and a reduction in hardware covered under the Agreement will provide the \$355,705 needed for the proposed Amendment's extension of time.

CIO Recommendations:

My office supports this action and recommends approval by the Board.
